Our Services

→ CCTV Class Inspection

NISHI SALVAGE & DIVING approved by all major Classification societies to carry out IWS, UWILD and Paint Surveys. Our CCTV equipment is of the latest technology in current market

→ Off Shore Operations

NISHI SALVAGE & DIVING provides a wide variety of diving services for the oil & gas industry in Bangladesh. Our services includes

- Calm Buoy SBM Maintenance/Inspection/Cleaning
- Sub-Sea Hose change and maintenance
- NDT Inspection
- Platform Inspection / Cleaning / Repairs

→ Propeller Repair

NISHI SALVAGE & DIVING is capable of carrying out underwater cutting of damaged blades with bends, nicks and cracks. By using underwater cutting and grinding discs the blades can be re-shaped to ensure maximum efficiency is obtained.

Our Services

→ Salvage Operations

NISHI SALVAGE & DIVING experienced teams of divers have conducted various salvage operations throughout Bangladesh's territorial waters

→ Blanking, Plugging & Cofferdam Installation

NISHI SALVAGE & DIVING designs, fabricates and installs cofferdams, blanks and plugs on vessels to allow for internal repairs ranging from valve replacement to pipeline overhauling.

→ Underwater Welding

NISHI SALVAGE & DIVING has full time employees conduct underwater sacrificial anode installation, temporary and permanent repairs on underwater vessel structures.

→ Recreational Scuba Diving at Saint Martin Island and Kaptai Lake.

If you're looking for a truly unforgettable adventure, consider scuba diving at Saint Martin Island and Kaptai Lake and Discover the beauty beneath the surface.
